

COVID-19 UPDATE

UPDATED PUBLIC HEALTH PROTOCOLS

MESSAGE FROM THE ASSISTANT CEO/HR DIRECTOR

The California Department of Public Health (CDPH) updated their guidance on the proper protocol for quarantine once a vaccination has been received. Therefore, the Public Health Department has updated the protocols in place to be followed if an employee, that has received the vaccination, has been exposed to a confirmed COVID-19 case.

Separate protocols apply for various groups including First Responders, Healthcare Workers in Acute Care Hospitals, Healthcare Workers in Outpatient Settings, Health and Human Services Providers, Critical Infrastructure Workers, and Healthcare Workers working in Skilled Nursing Facilities (SNFs). You may review the Public Health protocols by clicking on the following link: [Public Health Protocols](#)

Specific details of how the Public Health protocols will be administered will be included in the updated COVID-19 Guidance for Managers/Supervisor and Employees that will be out soon.

If you have additional questions, please reach out to your supervisor/manager for assistance.

Thank you for your service and your assistance in keeping both yourself and others safe.

BRENDA DIEDERICHS
