MEETING DATE:

Tuesday, January 29, 2019

FROM: HUMAN RESOURCES:

SUBJECT: HUMAN RESOURCES: Human Resources Internal Service Fund Rates for Fiscal Year 2019/2020, All Districts. [\$145,597,864 - Departmental Budgets 100%]

RECOMMENDED MOTION: That the Board of Supervisors:

- 1. Approve the Assistant County Executive Officer/Human Resources Director's recommendation for fiscal year 2019/20 Internal Service Fund rates for Property Insurance, Workers' Compensation, Medical Malpractice, General/Auto Liability, Unemployment Insurance, Short-Term Disability, and Occupational Health as attached.
- 2. Approve a waiver of Board Policy B-28 for the use of unrestricted net assets to offset operating costs for the Medical Malpractice Internal Service Fund in the amount of \$1,075,912 and for the Short-Term Disability Internal Service Fund in the amount of \$1,658,231.

ACTION: Policy

MINUTES OF THE BOARD OF SUPERVISORS

On motion of Supervisor Hewitt, seconded by Supervisor Perez and duly carried by unanimous vote, IT WAS ORDERED that the above matter is approved as recommended.

Ayes:

Jeffries, Spiegel, Washington, Perez and Hewitt

Nays:

C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary (continued)

These programs provide risk mitigation processes, early claims intervention, cost reduction actions as well as recovery for damaged County property. The costs of the insurance programs are allocated to departments based primarily upon department loss history and/or department payroll covered by the programs. In contrast, the Occupational Health program is funded on a fee for service basis.

Insurance programs are separated into the following Internal Service Funds (ISFs) by type of protection: Property Insurance, Workers' Compensation, Medical Malpractice, General/Auto Liability, Short-Term Disability, and Unemployment Insurance.

Funding for self-insurance programs is determined by actuarial analysis of general risk factors, incurred claims, estimated reserves required to pay for expenses, and actuarial assumptions such as return on investments. Property Insurance and a few other small insurance coverages are provided by outside vendors that charge premiums based on their individual proprietary methodologies.

Due to the continuing modest return on investment for county invested funds, our actuaries are recommending a continuation of the interest rate assumption of 2% for the General/Auto Liability and Medical Malpractice ISFs and 2.5% for Workers' Compensation due to that program's extended claim payout period.

Prior to FY 2011/12, the programs were funded to achieve a 70% confidence level, meaning the County's independent actuary estimated the fund would meet funding obligations 70% of the time and fall short 30% of the time. A 70% confidence level is considered to be marginally acceptable; the actuary's recommended range is 75% to 85%. We recommend a 70%

confidence level for all programs and recommend achieving that level for all programs as soon as feasible.

Beginning in FY 2011/12 and continuing in FY 2012/13, as a result of the financial crisis, the County elected to fund the General/Auto Liability, Workers' Compensation, and Medical Malpractice Internal Service Funds at a 55% confidence level. In 2013/14, Medical Malpractice was returned to a 70% confidence level. In FY 2014/15, Medical Malpractice continued at a 70% confidence level, but the increase in funding needed was offset by the use of unrestricted net assets. For FY 2015/16, the same confidence levels were maintained. In FY 2016/17 and continuing through FY 2018/19, the Workers' Compensation and General/Auto Liability ISFs were funded at the 60% confidence level. For FY 2019/20, we recommend funding both the Workers' Compensation ISF and the General/Auto Liability ISF at the 60% confidence level with a gradual return to the 70% confidence level. The Medical Malpractice ISF will continue to be funded at the 70% confidence level.

The actuaries calculated a plan surplus in the Medical Malpractice ISF. Unrestricted net assets will be used to reduce the rate, in accordance with Board Policy B-28.

Unrestricted net assets (plan surplus) of the Short-Term Disability Fund will be used to offset operating costs and reduction of rates/charges into future periods, in accordance with Board Policy B-28.

Occupational Health	\$1,800,000	\$2,066,840	\$2,669,634	29%

Property Insurance

The County's property insurance program is fully insured with various levels of deductibles based on coverage. Deductibles are paid by each department after a loss occurs. In addition to covering the County's real and personal property, the program provides earthquake coverage on contractually obligated leased buildings, and county owned buildings with a value of \$1 million or more. Also covered are the following other lines of insurance: Faithful Performance/Crime Coverage and Travel Accident.

The property premium costs are determined by a combination of the County's total property replacement values, the property's proximity to earthquake faults and flood zones (exposure), and the County's history of claims (experience). During the past year, the current Total Insured Values (TIV) of County-owned property have increased slightly by approximately .03% to \$3.541 billion. The replacement value for real property (county buildings) is updated each year by CSAC-EIA using Marshall & Swift replacement cost change factors for existing buildings. Marshall & Swift is a nationally recognized organization that provides regionally sensitive tables of replacement value change factors.

Property fund costs are allocated to each department based on each department's occupied square footage relative to the total square footage occupied by all County departments. In prior years, increases in replacement value of County-owned property contributed (among other factors like EIA pool results and general market fluctuations) to large increases in the property insurance bill, outstripping the estimates received for those years. This occurs because

premium estimates can vary greatly from actual premium cost and actual premium costs are not available at the time rates are developed. The combination of the variances from fiscal years 2012/13 through 2014/15 created a substantial deficit in the fund. In fiscal years 2015/16 and 2016/17 the department allocations were increased to bring the fund into balance. Funding from departments was reduced for FY 2017/18 in anticipation of the deficit being repaid. Sufficient working capital was restored, which resulted in a drop in the funding needed from departments in FY 2018/19. The recommended FY 2019/20 charge to departments is \$8.722 million, reflecting anticipated increases in premiums. Charges by department can be found in Attachment D.

CSAC-EIA is expected to provide updated rates no later than March 2019. Human Resources will continue to monitor this cost and, as conditions warrant, may recommend a rate adjustment to the Board prior to the start of the 2019/20 fiscal year.

Workers' Compensation Insurance

Workers' Compensation Insurance is a legally mandated program that is administered by County staff and is self-funded for up to the first \$2 million of each claim. Excess Insurance is provided through California State Association of Counties — Excess Insurance Authority (CSAC-EIA) for amounts above the self-insured level. For cost distribution to departments, losses are capped at \$500,000 per claim and departments are held responsible up to the cap amount for each claim. Total claims up to the cap amount are used to determine the percentage of experience each of the departments are charged with. This is multiplied by the total amount to be collected based on the confidence level. For FY 2019/20, Bickmore Risk Services (Bickmore), the County's actuary, calculated the required program funding to be \$47.1 million at the 60% confidence level. Charges by department can be found in Attachment B.

According to the latest data available from Bickmore, the Workers' Compensation program is experiencing slightly higher loss rates, but significantly lower average cost per claim than most comparable counties. County departments continue to benefit from implementation of cost savings programs such as Fraud Identification, Utilization Review, the Medical Provider Network (MPN), and Return-to-Work programs as well as the iVos claims management system.

Human Resources will continue to monitor Workers' Compensation claims activity as conditions warrant and will recommend additional rate adjustments as needed.

Medical Malpractice

Insurance coverage for the medical providers at the County of Riverside is provided by a program that combines self-insurance and excess insurance. This program and associated costs are allocated to County departments that employ medical providers including Riverside University Health System (RUHS) Medical Center, RUHS Behavioral Health, RUHS Public Health, Emergency Management Department, and Human Resources Department (Exclusive

Page 5 of 9 ID#8839 3.44

Care and Occupational Health). Each occurrence under this program is self-insured for the first \$1.1 million with the excess insurance provided by CSAC – EIA. For calculation of loss distribution, losses are capped at \$1.1 million per claim. Claims are administered by the Human Resources Department, Risk Management Division.

For FY 2019/20, Bickmore calculated the required program funding of \$8.335 million at a 70% confidence level. Bickmore considers funding assets at the 70% level to be marginally acceptable. Bickmore and CSAC-EIA recommend that the County does not fund below the 70% confidence level. Allocations per department can be found in Attachment C.

General Liability/Auto Liability Insurance

The General Liability/Auto Liability insurance program provides coverage for bodily injury, employment practices liability, personal injury, property damage, and public official errors and omissions liability for all operations of the County of Riverside. This program is self-funded for the first \$1 million for each occurrence (for claims through June 2014) with excess insurance arranged through CSAC-EIA. For claims after July 1, 2014 and through June 30, 2016 the program is self-insured for the first \$2 million for each occurrence. For claims after July 1, 2016 through July 1, 2018, the program is self-funded for the first \$3.5 million for each occurrence with a \$2 million corridor. For claims after July 1, 2018, the program is self-funded for \$5 million with a corridor of \$2 million. All program costs are allocated to County departments based 80% on department claims history and 20% on department exposure data. For cost distribution to departments, losses are capped at \$1,000,000 per claim and departments are held responsible up to the cap amount for each claim. Total claims up to the cap amount are used to determine the percentage of experience each of the departments are charged with. This is multiplied by the total amount to be collected based on the confidence rate.

For FY 2019/20, Bickmore calculated the required program funding to be \$69.598 million at the 60% confidence level. Charges by department can be found in Attachment D. The small increase is due in part to increased claim costs, increased cost of excess insurance, and a lack of fund surplus. Human Resources, Bickmore, and CSAC-EIA all recommend funding at the 70% confidence level, however recognizing the fiscal difficulty of returning to that level, at this time we recommend funding at the 60% confidence level. Maintaining this fund at a 55% confidence level for five years put a drain on reserves as the rate was insufficient to pay claims in the current year. The General Fund is always at risk of having to make the claims payments when the fund does not have sufficient reserves.

It should be noted that charges for airports, aircraft, cyber liability, and watercraft insurance are added to and included in the General/Auto Liability program departmental allocations. These charges are allocated only to specific departments. Allocations per department can be found in Attachment D.

Page 6 of 9 ID#8839 **3.44**

Unemployment Insurance

Unemployment insurance (UI) is a self-funded benefit program required by the State of California. UI has been trending favorably in recent years, resulting in lower than expected expenses due to claims.

At this time, UI fund appears to be stable. The County's quarterly unemployment charges over the last 36 months ranged from \$610 thousand to \$809 thousand, with the most recent 2 quarters slightly lower than charges incurred the year before.

Based on the County's unemployment experience, Aon Hewitt (Aon), the County's actuary for unemployment and short-term disability insurance, recommends increasing the rate from 0.202% to 0.254% for FY 2019/20. However, the County has built up excess funds above the state-required \$1.3 million reserve and the prudent working capital level due to better than projected experience. As such, Aon recommends the average UI rate remain unchanged at 0.202% for FY 2019/20. Actual UI rates will range from 0.137% to 1.518% of total pay, depending on the departments' claim experience. Estimated total charges will be \$3.332 million. Charges by department can be found in Attachment E.

Short-Term Disability

Short-Term Disability (STD) Insurance is a self-funded benefit plan covering most employee groups that accrue sick leave. Plan benefits are based on a percentage of the employee's salary. The plan provides temporary income replacement for 7,281 eligible members of Laborers' International Union of North America (LIUNA), 5,344 eligible members of Service Employees International Union (SEIU), and 688 eligible members of Riverside Sheriff's Association Public Safety Unit (PSU) as of September 2018. The amount of eligible members fluctuates throughout the year.

The STD rate for employees covered by Class 1 (PSU) is set at 1.07% with an annual salary cap of \$23,608. The Class 1 benefit provides 55% of an employee's monthly salary to a maximum weekly amount of \$249.70. The STD rate for Class 2 (SEIU and LIUNA) is set at 1.16% of salary with an annual salary cap of \$40,000. The Class 2 benefit provides 60% of an employee's monthly salary to a maximum weekly amount of \$461.54. The STD benefit levels have been negotiated with each collective bargaining unit. Estimated total charges for FY 2019/20 will be \$5.84 million.

The rate for both classes has been lowered for FY 2019/20. Aon's recommended rates reflect the expected cost of the plan and includes a 5% reserve accumulation component for FY 2019/20.

Page 7 of 9 ID#8839 3.44

Occupational Health

Occupational Health pre-employment physicals represent the first clinical encounter that prospective employees will experience with the County, setting the tone for expectations for those who have chosen to join the County work community. Drug testing is mandated for all prospective employees pursuant to Board Policy C-10.

Some job classifications have more stringent pre-employment restrictions established by state and federal legal guidelines to ensure a healthy working environment for employees and to mitigate risk to citizens receiving services. There are three levels of pre-employment physicals identified as Class I, Class II, and Class III. Class I physicals are performed for job classifications with the highest risk and Class III physicals are performed for the lowest risk classifications. Rates for all classes of pre-employment physicals can be found in Attachment F.

While employed at the County, Occupational Health annual physicals are performed specifically to meet guidelines established by Occupational Safety and Health Administration (OSHA), published by the United States Department of Labor and also the Health Insurance Portability and Accountability Act (HIPAA), published by the United States Department of Health and Human Services, that have outlined safety standards that must be maintained for many positions held across the County of Riverside. Medical staff members, hazardous waste handlers, and drivers each have their own rules regarding annual physicals. Random testing may also be required. Occupational Health provides the examinations to meet these requirements. Annual exams are also identified as Class I, Class II, or Class III due to the commonality shared with the pre-employment exams. Rates for Annual exams can also be found in Attachment F.

Last year, Occupational Health rates were raised for the first time in the last ten years. Since there is no history with the new rates, FY 19/20 rates will be held flat while the new rates are evaluated. The increase shown is due to variability in revenue from year to year that can be attributed to staffing changes and changes in demand for services countywide.

Conclusion

The Human Resources Department has made every effort to reduce each of its ISF fund costs. We have thoroughly reviewed the operational aspects and other funding requirements of each ISF. Where the ISF expenses are primarily claims driven, we believe that the FY 2019/20 budget target should be based on actuarial analysis and maintain the current confidence levels. We will continue to seek efficiencies that produce savings in administrative expenses as well as loss prevention and mitigation.

Impact on Residents and Businesses

There is no impact on residents and businesses as these are rates to internal County departments.

SUPPLEMENTAL:

Additional Fiscal Information

The Unemployment Insurance rate was held flat. For Property Insurance, Medical Malpractice, and Short-Term Disability, the rate decreased. However, for the General/Auto Liability rate a small increase was necessary to ensure payment of claims projections. The Workers' Compensation rate has increased to ensure payment of claims projections and to fund the five year plan to recoup the reserve deficit. Occupational Health rates are being held flat to evaluate the adequacy of the new rates implemented last fiscal year to sustain capital requirements and to maintain current service levels.

Contract History and Price Reasonableness

Comparisons with prior year rates are presented in the attachments.
