Performance returns assume the reinvestment of all distributions. Returns for periods less than one year are not annualized. Total returns reflect a contractual expense limitation for direct annual Fund expenses for all classes for certain periods since inception, without which returns would have been lower. Current performance may be lower or higher than the performance data. This material is not a recommendation to buy, sell, hold or roll over any asset, adopt an investment strategy, retain a specific investment manager or use a particular account type. It does not take into account the specific investment objectives, tax and financial condition, or particular needs of any specific person. Investors should work with their financial professional to discuss their specific situation.

Investing involves risk, including the possible loss of principal. Sector funds, if applicable, may carry additional risks which are more fully covered in their prospectus. Before investing, one should carefully consider the investment objectives, risks, fees and expenses. The fund prospectus contains this and other important information. Prospectuses can be obtained by contacting your local retirement representative, or Nationwide Financial at 1-877-677-3678. Please read the prospectuses carefully before investing or sending money. All performance shown is as of September 30, 2020. Performance that pre-dates share class inception is that of oldest share class adjusted for fees.

CURRENT PERFORMANCE MAY BE LOWER OR HIGHER THAN THE PAST PERFORMANCE SHOWN, WHICH DOES NOT GUARANTEE FUTURE RESULTS. Share price, principal value, and return will vary, and you may have a gain or loss when you sell your shares. There is no assurance that the investment objective of any fund will be achieved.
